## Table 2A. Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity

This table provides an aggregate profile of persons in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. Please provide unduplicated counts if possible.

Please enter the "total" in the appropriate row and column and report the data under the categories listed.

| Please enter the "total" in the appropriate row and column and report the data under the categories listed. |                         |       |                  |       |                                     |      |                  |        |         |                  |                           |      |                  |  |             |                  |        |       |                  |  |      |                  |                                |      |                  |                    |      |                  |

## Comments on Data:

<sup>\*</sup> Hispanic data are in Table 2B.

<sup>\*</sup> The reports shown on this website contain numbers for Indiana residents who are served by the Hoosier Assurance Plan (HAP) and do not contain numbers for all Indiana residents who may receive mental health or addiction services. The HAP is the main method by which the Indiana Division of Mental Health and Addiction can fund community mental health services. As established by the Indiana Legislature, the HAP is designed to support and manage the delivery of behavioral healthcare services to individuals who are in a low income population and who have clearly identified mental health needs.

<sup>\*</sup> Age is calculated at the beginning of the fiscal year.

<sup>\*</sup> The reports span an entire fiscal year (7/1/XXXX - 6/30/XXXX).

<sup>\*</sup> Persons with a diagnosis of only substance abuse or mental retardation are not included in these reports. Therefore, persons with a co-occurring diagnosis of mental illness and substance abuse or mental retardation are included.

<sup>\*</sup> This report currently contains data from the Community Services Data System (CSDS) and Creative SocioMedic's - Behavioral Health Information System's - Decision Support System (DSS).
